SAN JOSE. SAN JOSE.

BERFORD & CO'S LINE
OF EXPRESS MAIL STAGES,
HALL & CRANDAL, PROPRIETORS.

Are now running every morning to San Jose, leaving Berford & Co's office in the plaza, at 8 o'clock, A. M., and the City Hotel in San Jose at 7 o'clock, A. M.

The reduced rate of fare puts it in the power of every one to visit the beautiful and healthful valley of Santa Clara. There is no more charming drive in California than that from San Francisco to San Jose, and as one is whirled rapidly through the oak openings and across the level plains under the skillful driving of Professors Dillon or Crandal, who drive their own coaches, he finds that pleasure is united with business, and wonders he has never made the trip before.

The great advantage this line possesses over all others, is that the Stages were bought expressly for the road, and with a particular attention to *safety*, while the drivers, who have served a long apprenticeship from New England to Mexico, make the *quickest* time and *never meet with accidents*, which are so likely to occur with the old fashioned stage coaches. We invite our friends to give the line a trial.

LITERARY SOCIETY OF JERUSALEM.

JUNE, 1850.

SIR:—It may not be uninteresting to you to learn that our small English colony in Jerusalem has instituted a society for the investigation of all subjects of interest, ancient or modern, scientific or literary, belonging to the Holy Land, with his lordship the Anglican Bishop for our Patron, and corresponding members in Jaffa, Safet, Beyrout and Damascus. And we have commenced the formation of a Library and a Museum, to which liberal access will be afforded to persons of all nations and religions, under certain simple regulations.

The library it is proposed shall be not only of a general character, but shall have an express Oriental department, for books and manuscripts in Asiatic languages.

The Trustees are his lordship the Bishop, R. Sandford, Esq., M. R. C. S., and myself, all being members of the literary society with which the idea of a public library originated.

But we are under the necessity of appealing to patrons of such associations, and friends of such pursuits as ours in Europe, for pecuniary aid in the purchase of books, especially old books relating to this country, and a few philosophical instruments.

During the few months of our literary existence, we have had twenty-two weekly meetings for reading original papers and exhibition of curiosities, and have erected a handsome sun-dial for the public benefit. We are now about to begin an experimental garden for practical horticulture.

The interest felt for this country by Europeans is now far greater than has been known for many ages past, and it is chiefly shown by the increase of travelers resorting hither, many of them being persons eminent in rank and learning.

For their advantage as well as our own, it becomes desirable to have a library of reference, and something of literary intercourse to offer them.

As for our literary society, as distinguished from the library and museum, we believe it to be capable of a far higher development than our humble talents or amount of learning have as yet been able to afford it. For this we require not only books, but men, men of science, erudition and religious feeling.

And there is scope enough here for the exercise of great talents and industry in the birth place of christianity, surrounded by Asiatic institutions and processes of the human mind; there is an interesting range of investigation to be found among unknown products of nature; we have strange combinations of the human family presented for study in this religious centre of the world, and ancient languages are spoken here every day, and all day long.

The land given to Abraham, with all its chequered history subsequent to the donation, can never fail to demand attention, and our aim is to explore not only what might be matters of curious research in any country, but impartially to record whatever may corroborate the sacred scriptures of the Bible.

Contributions for the library will be received in London by Messrs. Wertheim & Macintosh. Booksellers, 24 Paternoster Row, who will forward to us boxes occasionally by sea to Jaffa.

J. FINN, H. B. M. Consul.
Member of the Royal Asiatic Society, London.

Further information may be obtained through J. B. M'Caul, Esq., St. Magness Rectory, London Bridge, to whom also donations may be paid.

Donations will also be received in New York at the office of Geo. M. Lewis, 61 Front street, who will forward them to their proper destinations. N. Y. Journal of Commerce.

CALIFORNIAN AND RUSSIAN GOLD.

According to the last accounts received from the United States, the quantity of gold received from California amounted to more than $25,000,000, or £5,000,000. It would be a moderate calculation to say, that the gold which had been exported to China, to the South Sea Islands, to Australia, and to all other places, and that which remained on hand at San Francisco on the 1st of July, was equal to one-fifth of what had been actually received in the U. States, which would make the entire production of gold in California $6,000,000, in little more than eighteen months; and knowing how scant the population was during the earlier part of the period, compared with the latter part, the least proportion of that sum that we can suppose to have been produced during the last entire year is $4,500,000. The last year for which we have authentic official accounts of the production of Siberia and the Ural Mountains is 1846. For seven years prior the production had been rapidly increasing. From 1840 it had risen from 585 poods to 1,724 poods in 1846 Since then we have no reason to believe that the production has not been fully maintained. But as there is a duty of 20 to 25 per cent. levied by the Government on the produce, it is well known that the actual quantity obtained considerably exceeds the official quantity returned The calculation which has already been made on this score is, that the real quantity is at least 20 per cent. larger than the declared quantity, At this rate the value of the gold produced in Russia in 1846 was $4,232,809. Therefore, between California and Russia, the two comparatively new sources of supply, we cannot estimate the present annual produce of gold at less than 8,500,000 pounds. How long this rate of production will continue, is, however, as yet a very doubtful question.—[London Examiner.

OVER-*shot* THE MARK—HE DID.—An incident transpired in this city a short time ago, which resulted in the discomfiture of a *noble Captain* of Stockton distinction, and some little wonderment in the community from the announcement of a large robbery, which appeared the day after the occurrence. The story of the five thousand dollars theft is founded on the following facts. The hero of the tale had heard of an hombre in this fast town who furnished an article of California coinage, as *good to go* as the real Moffat pure, and in which a dust investment would yield a clear profit of 100 per cent. He makes a raise of the needful to the amount of $2500, and comes over here to carry out the operation. Some $50 or so of the supposed counterfeit are given him on trial and passes as readily as the real eagle. Elated with the success of his enterprise he arranges with the man of the coin, to have $5000 of the some sort put in a convenient box, and to hand it to him when they meet again. He soon after encountered his friend in the street and the mutual transfer of bag for box was made, and the latter deposited in the safe of one of the large J street hotels. The Captain soon after took a notion to look at his prize, and what was his chagrin to find shot instead of shiners in the casket. Off he went in pursuit of the villain and found him soon, but there was no use of his threats of exposure and villainous denunciations. The hombre was perfectly calm and disconcerted, merely recommending his dupe to say as little as possible and that not quite so loud.—Times.

A MODEL NEWSPAPER —In an article on the subject of an honest and independent newspaper, a contemporary remarks:

"It is a great blessing to any community to have a paper in its midst which can look at all sides of a question, and through it, instead of being borne away by first impressions or popular frenzy; and which, having thus satisfied itself what is wise, just and good, has the moral courage to say that which it thinks. A country editor very piquantly remarks:

We do not belong to our "patrons;"
Our paper is wholly our own,
Whoever may like it, can take it;
Who don't—can just let it alone.

An acquaintance down from the North Fork of the American river, informs us that large numbers of persons are at work some thirty-five miles from this city, on that stream in dry diggings, and are doing very well. He thinks when the rains commence this will be one of the best mining regions in the country.

SAFETY OF RAILROAD TRAVELING

Dr. Lardner has produced a volume of 450 pages on the whole subject of steam travel, and given a table showing, from a very large induction of facts, that in every mile traveled, the loss of life has been only as 1 to 14,661,477—equal to going round the world nearly 600 times; and the reception of any injury whatever only as 1 to 7,320,738, or about 300 times round the world. From the chapter on the causes of accidents, it appears that of all accidents beyond the control of passengers, 56 per cent. arise from the collision of trains; 32 per cent. from defect in wheels, axles or rails; 5 per cent. from switches; 3 per cent. from cattle on the line, and 1 per cent. from the bursting of the engine boiler. Of accidents produced by imprudence of passengers, 28 per cent. occur from improper place or posture; 24 per cent. from leaving a train in motion; 13 per cent. from jumping off; 12 per cent. from crossing the track incautiously; 6 per cent. from getting out on the wrong side, and 1 per cent. from handing articles into a train in motion. Of these accidents, 67 per cent. are fatal. It will be perceived that trains running out of the usual time are less safe than regular trains; and that a passenger's safety depends much on his being always in his place and in due time.

The Rains and the Rivers.—It commenced raining here on Tuesday morning last, and rained incessantly all that day and evening. Above here there must have been still harder rains. The rainy season has commenced, and no mistake. Both Feather and Yuba rivers rose on Wednesday and the following night about four feet. There is now quite a sufficiency of water for the river steamers to run up here, and we shall daily expect to see the Gov. Dana and other favorite boats steaming and puffing their way to their old accustomed landing places. [Herald.

High Lodgings. — A Down Easter came to New York and took lodgings for the night at what might be called one of the *high* houses. Telling the waiter he wished to be called in the morning for the boat, both of them proceeded 'on their winding way' upwards, till they arrived at the top of the eighth flight of stairs, when Jonathan caught the arm of his guide, and accosted him—'Look here, stranger, if you intend to call me at six o'clock in the morning, you might as well do it now; as 'twill be that time afore I can get down again.'

☞ In the Monthly Religious Magazine, of Boston, for September, a writer relates a conversation he had with Wordsworth, in 1842, which opens thus:

"Wordsworth.—I understand, sir, that you are from the other side of the water. How progresses with you the question of the international copyright between England and America?"

We have a curiosity to ask the writer whether he is quite sure Wordsworth said "progresses;" as that word is said to be an Americanism, and of course no English stickler for copyright in America would violate his own principle by using it.

Opening of Navigation—The fine fast-sailing steamer Gov. Dana, under the command of Capt. Samnel Barrell, proceeded as far up as Marysville on Friday last. Her appearance was hailed with delight by nearly the whole town of Marysville, who stood upon the bank of the river, awaiting her approach. The Gov. Dana will for the present run three times a-week to Marysville, every Tuesday, Thursday and Saturday.

WHIG CANDIDATE FOR U. S. SENATOR.

There appears to be no small degree of animation among leading men in the Whig party as to whom they shall elect to the Senate of the United States in place of Mr. Fremont. In the evenly balanced political complexion of the Legislature, it is a matter of importance that strong men be brought forward; and in this, so far as the Whigs are concerned, we are free to confess they exhibit judgment and policy in doing. It is certain, then, that the Democracy will have to meet a foeman worthy of their steel, in the contest for the Senatorial dignity; and when we tell them that this opponent is to be Col. JAMES COLLIER, the present Collector of San Francisco, it will prove how well the Whigs understand the policy as well as wisdom of coming into battle under the leadership of their best man. Col. Collier, it is maintained, has been unjustly censured in his official character—stabbed at Washington by letters written by his *professed friends* in this city, and his rejection by the Senate thus procured through the influence of undue and interested manœuvres.

The high consideration in which Col. Collier is held by President Fillmore, is evidenced by the fact that, notwithstanding *the* letter, and other movements having for their object to disgrace him at head-quarters, he was promptly nominated to the post he now fills—as well as that his brother has also been tendered *any* office that he might be pleased to accept, within the President's gift.

To be able to place in the Senate of the United States, under the ægis of the broad seal of California, a man *rejected* by that body, would indeed be a triumph, potent in its political effect, and sufficiently gratifying to heal the most deeply wounded feelings; and it is the determination of the Whig party here to thus show the high regard entertained by them for Col. COLLIER. That he is a gentleman worthy of this regard cannot be denied; and it certainly becomes the Democratic party to prepare to meet the solid phalanx presented by their wily and vigilant opponent, by an equal concentration of their full strength upon the best man to bear aloft the glorious banner of Democracy, under the folds of which California, the brightest Star in the national galaxy, was won, in opposition to the most strenuous efforts of the Whig party of the Union.

The Whig organ has either maintained an ominous silence in regard to their candidate for U. S. Senator, or has not itself been properly posted up; for indeed the movement that has been going on among the Whig leaders, has been kept remarkably close, it being their object to foster divisions in our own ranks, and then, when least expected, spring upon us a well digested plan of campaign that should route us horse, foot, and dragoons. It remains to be seen whether the Whig party are to be suffered to walk over the course, even though so popular a man as Col. Collier be their Achilles.

☞ Two of our morning contemporaries write wisely about an extra session, but their wisdom is too deep for mortal comprehension. They say and do nothing towards remedying the embarrassment, and yet see everything going to Davy Jones' locker, without hope of redemption. One of them treats its readers to a column, every few days, about the anxiety of *somebody* to get their pay from the State, as though that pay *should* have gone into *somebody else's* pocket, who did not happen ever to get State warrants! Disappointment *will* sour the sweetest tempers.

The other journal, perched away up on stilts, assuming a wonderful degree of dignity, writes half a column of words, turns its periods very nicely, and proposes *nothing*. We suggested a remedy, but *they* lack either the sense or the boldness to propose a plan of relief. It is a very easy matter to denounce a proposition with unmeaning words, and insinuate dishonorable motives, but it is quite another affair to point out the course necessary to avoid the financial breakers which threaten the State. "Statesmanship" will yet be at a discount, "on the Plaza."

☞ The *Courier* is desirous of putting on record, while the fact is yet fresh in the minds of the people, that the Democrats have a majority in both houses of Congress. He might have added, that, judging from the returns of the State elections already received, that there was a prospect that the political complexion of the National Legislature would not very soon be changed!

AUCTION SALES.—Kettelle, Mahony & Co. will sell this morning at 10 o'clock, a large lot of lumber, &c. [illegible]

REFUSING TO PAY TAXES.

By a communication from the Street Commissioner presented to the Board of Aldermen on Monday, we perceive that Messrs. J. L. Folsom, Wethered, Bowie, and Mr. Larkin decline paying their assessments for the improvement of certain streets in front of their premises. Upon what ground this refusal is based, we are not informed, but unless it be upon the most just and tenable, we trust the collection will be enforced to the fullest extent of the law. It is all very pretty business to plank the streets, and thus enable us to keep *heads* out of the mud, but the refusal on the part of individuals to pay their share of the expense, is reprehensible in the extreme. The lands of these gentlemen have been much enhanced in value by the various city improvements, and now forsooth, they "repudiate!"

We were glad to see that the Common Council promptly authorized the employment of additional counsel to aid in prosecuting suits against these gentlemen for the recovery of the amount of the assessment.

THE LEIDESDORFF CASE.—We understand that a very voluminous document, about the size of a fiddle case, under the broad seal of the "Superior Court of San Francisco," was served on Judge Morrison yesterday morning, while holding the Court of Sessions, at the suit of Capt. J. L. Folsom, which ponderous document was called a *Writ of Prohibition*, commanding Judge M. to abstain from any further proceedings for the administration of the Leidesdorff Estate.

We are inclined to think, however, that this formidable process will produce no particular "scare" upon the mind of the Probate Judge, who seems to be quite competent to deal intelligently with the matter before him, irrespective of any proceedings that may emanate from the Municipal Court. It is a useless waste of paper and ink, at the expense of a bankrupt city.

THE FRENCH IMMIGRATION.—Our streets yesterday were quite thronged by the recently arrived French passengers and their fellow-countrymen, who turned out to greet them. Every lady had her *compagnon*, and the Conseil was to be seen here and there, at every turn. Our French citizens are a remarkably quiet, orderly set of men. They do not understand our people very well, but they do not [illegible] and *courage*. We have been much gratified with what we have seen of M. Dillon, the representative of the French government at this place. He is a gentleman in manners and highly respectable in general intelligence. And if all Frenchmen who come hither imitate him, we are sure society will be benefited by their admixture with our population.

THE STATE VS. NICHOLAS GOMAS.—Calhoun Benham, for the State, and Messrs. Howard & Brodie, for defendant. The defendant in this was charged with an assault with intent to commit a rape upon the person of Rosales Artler, a little girl of the age of three years. The evidence adduced on the part of the State was very conflicting in its character. Mr. Howard, who conducted the defence, dwelt at length upon the contradictions, and upon the evidence of the respectability of the character of the defendant. The jury, having been instructed by the court as to their right so to do, after an absence of an hour, rendered in a verdict of *guilty of an assault and battery*, and fined the defendant $537,50.

ANOTHER VETO.—Our Common Council proceedings yesterday morning announced that his honor the Mayor had vetoed the bill appropriating $9,500 to pay Mr. Green for the Ocean House. The bill was finally passed, notwithstanding his objections. It will now have to pass the ordeal of the board of assistants, to become a law. The common council pass bills, and the Mayor vetoes them. So we go.

BATHE OFTEN.—We have not known an instance of cholera, or other severe sickness, to occur to any one who was regularly accustomed to bathing. For ourselves, this is one of the few comforts which we will not forego. Once call in, reader, at Mygatt & Bryant's Baths, in Washington street, below Kearny street, and you will wish to call again.

ILLNESS OF MAYOR BIGELOW.—We regret to announce that Mayor Bigelow, of Sacramento city, lay at the point of death last night. All hope of recovery was given up by his friends when our paper went to press. Cholera is thus putting an end to sufferings which have been painfully severe in the past.

BRING OUT THE BIG GUN!—The Whigs have elected a Justice of the Peace and a Constable, in San Francisco! Glorious Whig victory! San Francisco O. K. The [illegible] of the Whig organ must be near at hand. Who would have *thunk it*!

WASHINGTON MONUMENT MEETING.

The meeting called for the purpose of concerting measures to raise funds in aid of the Washington Monument, was held at the Union Hotel last evening. The attendance was not as large as it should have been.

The meeting was organized by the appointment of Hon. R. N. Morrison, President, and Messrs. Geo. A. Hudson and Lewis R. Lull, Secretaries. The object of the meeting was stated by the President, upon whose motion the following gentlemen were appointed a Committee to carry out the objects designed: F. Argenti, J. L. Folsom, H. M. McAllister, George Endicott, J. D. Stevenson, P. A. Morse, Nathaniel Holland, Nath'l Bennett, John J. De Puy, Orrin Bailey, Levi Parsons, John Satterlee, H. S. Brown.

F. Argenti, Esq., was named as the Treasurer, with whom all monies collected are to be deposited.

The following resolutions, introduced by J. J. De Puy, Esq., were unanimously adopted:

Resolved, That whilst we are far removed from our early homes, we have not forgotten the teachings of our fathers, to love the Union of the States, and venerate the memory of the founders of the government.

Resolved, That as Americans, in this our new home, we cherish the same love and regard for the character of the immortal Washington, as animated our bosoms in other homes; and in testimony of our gratitude for his disinterested patriotism, we will cheerfully co-operate with our brethren throughout the Republic towards the erection of the National Monument to his memory in the Federal capital.

A vote of thanks was passed to the proprietors of the Union Hotel, for the use of their hall, and the meeting adjourned.

A GOOD PLAN.—We understand that after the first of the coming month, public gambling in the saloon of the Union Hotel, Portsmouth Square, will be done away with. This is a highly creditable movement on the part of the proprietors. The income from the sporting tables amounts to between forty and fifty thousand dollars per year, of which, of course, they will be deprived by this arrangement.

The proprietors design to make the Union a first class Hotel, and this is but another step in the perfection of their arrangements. The public should, and no doubt will, properly appreciate their efforts, especially in view of this last movement in accordance with public sentiment, and extend to them that liberal patronage to which the establishment is so eminently entitled. We look forward with pleasure to the day when public gambling, in all our saloons, shall be abolished.

SQUATTERISM.—We give place, in another column, to a communication on the subject of Squatter doctrines, without, however, expressing at this time, any opinion of our own on the matters at issue. We make a point always to give a hearing on any question of public interest, whether we agree with the writer or not; for we hold that in an intelligent community no error can long be propagated with success, nor truth and right be trodden by combinations of the selfish and powerful. The writer is one who thinks deeply, and whose opinions are the reflex of a large body of our citizens.

COME AT LAST.—That invoice of beautiful new Beavers, of the latest styles, manufactured by Beebe, of New York, arrived yesterday, and T. P. Everett, in Commercial street, filled his shelves with them last evening. We shall now expect to see every *dandy* in town sporting a span new genteel tile.

☞ Berford & Co. have removed to the new hotel at the corner of Clay and Kearny streets. This is one of the best locations in the city, and the Express is not to be surpassed by any other in this or any country. We are daily experiencing the truth of this remark.

ALDERMAN WILSON.—We were pleased to find this gentleman much better yesterday. He has had a serious attack of cholera, from which he is slowly recovering. But few of our citizens are more generally esteemed than Alderman Wilson.

SAILED.—The splendid ship Dumbarton sailed for Panama yesterday, with two hundred and thirty-two passengers. She was put up by Smith & Co., Cunningham's wharf.

THE ADELPHI.—The Model Artistes give but three more exhibitions in this city, as they design to leave for Sacramento the first of next week.

DRAMATIC.—State Secrets, the Law and the Doctor, and the Hole in the Wall, was played at the Dramatic Museum last evening, with great success.

The Legislature of Maine will stand 93 Democrats, and 58 Whigs and Free Soilers.

INTERESTING FROM THE SEAT OF THE INDIAN WAR.

Major Kelly, special aid-de-camp of Gen. Winn, returned on yesterday from the head quarters of the forces under Col. Rogers. We have been favored with a reading of the report of Major Kelly, from which we learn that the volunteers on leaving Mud Spring had marched along the south fork of the Cosumnes, and Indian, Dry, and Rancheria creeks, at which latter place the mounted men under Capt. Graham, were detailed to scour the country as far as the volcano, and rejoin the main division at Grass Valley. This body in its march discovered several rancherias, some of them quite extensive, consisting of half a dozen tenements, but all deserted, or just being so.

In some cases the troops were so fortunate as to find meat left by them all hot and "broiling on the coals," and "bread of a peculiar composition in a state of baking;" only one Indian was captured—a chief named Saleto, and he was discharged as a friend.

The Infantry captured four Indians in their route, two of them chiefs, named Dan and Polenti. The first proved to have been engaged in the fight near Johnson's Ranch, and to have been harboring a number of hostile Indians. He was instructed by Colonel Rogers to dispatch three of his tribe to bring in the hostile Indians. The chief accordingly gave directions to three of his men, the substance of which was learned the next morning to be, that they should gather all the warriors they could arm, repair to within a short distance of the enemies camp and secreting themselves send in three of their number under pretence of friendship, and as was presumed, make an attack upon the command, when it least expected one.

The report goes on to say, that next morning the fire-arms of the soldiers having got wet from the heavy rains, a large number of them were discharged, which the prisoners took advantage of and broke their guard and decamped. "*Two* of the three, however, who attempted to escape, were pursued and shot a short distance from the camp. Dan, the chief, escaped, possibly wounded." Firing was heard in a southerly direction the next morning, and a body of troops dispatched, but the Indians fled before their arrival.

Heavy rains constantly prevented the army from making any general demonstration, but three or four scouting parties were daily sent off in various directions, some of them came suddenly upon Rancherias, the Indians decamping at once, taking to the heights, where they snapped a few caps, showing the bad condition of their fire-arms. Scouting parties along the Mokelumne had no better success.

On the 21st, Col. Rogers dispatched a messenger for Casuse, designing to treat with him, but it was not probable he would be induced to come into camp.

In the event of the rains ceasing, it was contemplated by Col. Rogers to march over the mountains to the emigrant trail on the Carson route. The report was that the Indians had collected in the mountain fastnesses in that direction, and would make descents upon the mining districts during the winter.—[Times.

ANOTHER OUTRAGEOUS MURDER.—The vicinity of Washington and Kearny streets, has again been made the scene of a most savage butchery, making the fourth horrible transaction of the kind which has taken place in that spot within less than a twelve-month.

The particulars, as we gathered them from the lips of Capt. Casserly, of the Police, are these: One Michael McMann of Sydney, had been betting at monte in the saloon of Rendezvous, at the north-west corner of the above-mentioned streets, when a dispute arose. A young sporting gentleman known as "Little Arthur," from Stockton, took up the quarrel without provocation, and killed McMann at the second stab. Arthur escaped, as Withers and Jones, and the murderer of Dr. Fish have done, and up to the time of our writing had not been taken.

THE POLICE.—The following police officers were appointed on Monday: Edgar Jacks, Edward Price, Mortimer J. Smith, M. J. Kane, Andrew L. King, Daniel Cunningham, James Irwin, James McElroy, William A. Thorp, Eldon Moody, [illegible] Leonard, James Paterson, D. S. Lester, F. H. DeWolf, Cesare Pastacaldi, Thos. McCarty, and Phineas M. Blunt.

DIED SUDDENLY.—Francis De B. Burgess died suddenly at Russell's boarding house, Gold street, on Monday. He was from Green Point, N. Y., where his family reside.

ALARM OF FIRE.—The alarm of fire yesterday afternoon was caused by the settling of smoke over Dr. Rabe's building in Clay street.

THE CHESAPEAKE.—This steamer will be sold at auction to-day.

DR. CHARLES ROBINSON, THE SQUATTER LEADER.

Editors of the Pacific News:

I have never entered openly into the question of squatterism. In August last, I remember very well the circumstance of a gentleman who was on the editorial corps going to Sacramento in order to report the facts as nearly as might be done. Our sister city was then in the midst of the wildest panic. A few men who ventured to assert that they had some right to the soil as well as others in California, had suddenly become the objects of fear to a great and powerful community. Even courts of justice thought it necessary to wear their sternest aspect, and frown down so untoward an attempt against the rich. Liberty of the press, and freedom of speech were for a time interdicted in Sacramento, and the gentleman alluded to, for a few words spoken in company, was seized and put under $2000 to keep the peace!

How changed has public sentiment already become on this subject! Lands have fallen in the public estimation to a more reasonable value, and doctrines that were once thought to import treason, are now familiar as household words. The squatter principle is silently and energetically pervading the entire body politic. Lands, the title to which is not in the occupant, belong to the United States, and as such are equally open to be entered by any citizen of the United States who may choose to possess them. So far as this goes, I am a squatter "out and out."

That the title to the lands in the City of Sacramento is, or ever was in John Augustus Sutter, I do not believe. It has never been shown to be so. As well might the Mission Dolores lay claim to all the lands in the Pueblo of San Francisco, as Mr. Sutter to the lands along the banks of the Sacramento, from Feather river to the *tule*.

A few sharp sighted men who early came to California, seeing that what has happened would necessarily happen, entered upon the lands now occupied as the site of Sacramento City. We do not pretend to say that this was not done under cover of a title from Sutter. But that he was benefitted thereby, or that he had any shadow of title to convey, we most absolutely disbelieve.

Fortune poured her abundant favors into the laps of these early occupants of Sacramento. But even they had not the presumption to say that it was all their's. In the summer of 1849, when I first saw the site where the city now stands, lots were open to any one who chose to occupy them. A huge landed monopoly was a thing unknown, and unthought of there at that time. This was an idea of slower growth. The progress of events matured it. The vast immigration by sea and land made it certain.

Among those who came by the road "over the plains," the attachment to the soil has been peculiarly strong. They, (less than others,) seem to have possessed the spirit of the sea-roving Normans, and more of the home-loving devotion of the Saxons. Among many others who thus came, was Chas. Robinson, M. D., whose name stands at the head of this article. He is a man of about thirty years, and of the usual hight and size, with a pleasing and intelligent countenance. A native of Worcester county, Mass., he graduated at the Medical School in Pittsfield, in that State, in 1843, since which he has practised his profession in his native State.

Dr. Robinson had made arrangements at an early day to come to California, and arrived in the mines on Bear river in August 1849. He thence went to Sacramento city in September of last year, and kept a boarding-house. His health, for which he in part left home, improved by the hardships he was called to endure, and business, with wealth, were beginning to flow in upon him.

From his position, he become fully acquainted with all the questions affecting titles to lands in and around Sacramento; and thoroughly persuaded also that the right to any particular tract was only in the occupant of the same. He saw that Sutter, like the aborigines, was only retiring before the advancing settlers. He knew that no *bona fide* sales of land in fee simple would or could be made to the settler; and he became a squatter.

The sequel of his history is well known. A man of warm and generous impulses, he may have erred in overacting his part; but his error leans to virtue's side. He did not expect honor or emolument. He wished simply to stand on the *right*, the *truth*, and if he might, the *law*. But the courts turned a deaf ear. His suit was disregarded, and blood was spilled in consequence. Let the mantle of charity fall over the errors of all parties who were engaged in this unhappy strife. Let us not condemn those who are unheard. Place Dr. Robinson to-day, in New York or Boston, or in any other of the great cities of the land, and he would become the very hero of all admirers. Let it be seen and understood that he is simply asking for a hearing, and that he stands firmly on the right, and he would command the homage of millions. And if we do not greatly err, he is yet to be in California one of the *heroes*, such as are produced by the conflict of great questions, and whose name shall be regarded as linked forever with the destinies of our young State.

S.

SAN FRANCISCO, Nov. 23.

Editor of Pacific News:

During the past few months, considerable has been said, and much anxiety manifested by many of our citizens regarding the validity and security of City Scrip, which has of late been so lavishly issued by the comptroller, under authority from the City Council.

The present serious depreciation in the market value of scrip has created not a little alarm in the minds of holders, the belief having gone abroad that San Francisco will not redeem her paper obligations, and from some rumored illegality in its issue, redress cannot be obtained in the event of its non-redemption. The absurdity of these beliefs and rumors cannot perhaps be better and more clearly demonstrated than by a perusal of the following extract from the *Cincinnati Commercial*, which, for the benefit of those interested, I take the liberty of handing you for publication in the News:

"ALLEGHANY SCRIP.—Judge Grier, of Pennsylvania, recently decided an important suit, brought by Wm. A. McCormick, of Virginia, against Allegheny City, for recovery of $5001 of that city, with 10 per cent. penalty. The defence set up was that the issue was illegal, consequently not recoverable by law, and if recoverable, the act of limitation would be a bar to their recovery. The defence was overruled, and judgment entered."

Respectfully yours, A. S. G.

THE UNDERSIGNED, who established the first wholesale Drug House in California, under the firm of Dr. Rabe & Co. has sold out his whole stock to Mr. Charles R. Story, the successor of C. C. Richmond & Co., by which the two largest establishments have become united.

It is with pleasure that I am able to recommend Mr. Charles R. Story's establishment, knowing his personal ability in his business, and having myself sold to him a stock of Drugs entirely fresh, (all my old stock was consumed in the great fire.) The whole of these new goods were selected by me during a recent visit at the North, and were put up by me, regardless of price, and of the best quality. To persons acquainted with the Drug business, I need only say, that they were put up by Haskell & Merrick, of New York.

In thus retiring from the Drug business, to be better enabled to attend solely to the practice of Law and Notarial Business, I herewith tender my thanks for previous patronage, and beg leave to transfer the same to my successor, Mr. CHARLES R. STORY, corner of Montgomery and Washington sts.

PROSPECTUS
OF THE
SAN DIEGO HERALD.

"There the large olive rains its amber store
In marble fonts; there grain, and flower, and
fruit,
Gush from the earth until the land runs
o'er." [*Byron.*

The undersigned beg leave to announce to the public of California generally, and to the English-speaking population of Southern California in particular, that they intend to publish a newspaper at San Diego, under the above title, the first number of which will be issued about the first of January, proximo.

Terms of subscription, $12 per annum. In politics, the San Diego Herald will be *independent*, but not neutral; it will be the organ and engine of no party,—but the impartial advocate of such measures as shall seem best calculated to promote the general welfare of the State, and advance the local interests and property of Southern California, or more immediately of the District of San Diego.

Its design, however, will by no means be to engender any sectional jealousies, or to encourage any measures at variance with the unity and harmony of the State. Its paramount object will be to describe the localities and unfold the resources of "the sunny and luxuriant regions of the South"—to watch over their social and administrative interests,—and to promote their welfare by every legitimate means and influence which the press can employ.

To the American residents in Southern California, the publishers will look for their principal support; and considering the expense of the under taking and its immediate importance to the local interests of San Diego, is is hoped that the publication will meet with liberal encouragement. Among the inhabitants, however, of the Northern districts, the *San Diego Herald* will expect to have many readers desirous to obtain authentic information and periodical intelligence from the South.

J. JUDSON AMES & Co.

SAN DIEGO, Nov. 16th, 1850.

To the Editor of the Daily Pacific News—

SIR: You will confer a great favor by giving the within a few insertions in your valuable sheet, for the benefit of your readers and the community at large, that they may be satisfied with the affair that occurred a few months ago, concerning the elopement of my daughter from her husband, Isaac Graham. The reward offered for Jesse J. Graham, you will please insert for six months, and oblige

Very respectfully, yours, &c.,
MARY BENNETT.

SEPTEMBER 27th, 1850.

MRS. MARY BENNETT—

DEAR MOTHER: I presume that you are very much surprised at my sudden departure. I was very sorry to leave without telling you I was going, but I knew that you and my brothers and sister would not let me come away; and I was so tired of being beat and having bowie knives drawn over me, (for twice that old brute Graham drew his bowie knife across my throat till the blood ran down my breast, and I expected every day he would kill me,) and finding it impossible to please the old tyrant, I believed that my only chance was to leave him or be murdered by his hand. So I thought it would be better for me to go to a foreign country, where I would not be troubled with him any more. I see by the *Daily Pacific News* of the 16th of May, that I have been accused of having a lover with me, which you and the citizens of Santa Cruz pronounce to be false, and which is absolutely false. I did not nor never will degrade myself so far as that; and I see by the same paper that you and my brothers and sister have been cruelly treated on account of my departure, of which you all are innocent. I left without the assistance or knowledge of any of you. I would not take so much trouble to tell of your innocence, but I wish you to show this, my handwriting, to all the people, wherein I state that, let who will say that either my mother, brothers or sister assisted me to get away, or knew anything about it, they tell a positive lie, and the truth is not in them. The paper did not state what had happened exactly; it said Mary Ann had been honorably acquitted of being accessory to my flight, and that Jackson offered two thousand dollars, and the county of Santa Cruz one thousand dollars for Jesse Graham.* I am very sorry to see that my child was brought as a witness against my innocent sister, which Graham himself was the murderer. I say he murdered it, because it was abuse that I received from him. His hands was its death. Instead of my living with a lover, I am living in a worthy man's family, after a voyage of four months I have suffered very much from sickness, and my children have both had some sickness, and are not in very good health now, but they are about. I am miserable since I heard that news. I wish I had stayed and been murdered by his hands; it would have been better for me to die than to live and know that my dear people had suffered so wrongfully; perhaps suffered death on account of my departure As I said before, I am living in a worthy Englishman's family, but I shall never be happy again in this world. I hope these few lines I have traced by candlelighht may find you alive and well, but I am afraid they will not. If we meet no more in this world, I hope we may meet in Heaven above. May God be with you all; my children are baptised, and I shall be soon; give my love to all my friends, my dear brothers and sisters, while I remain your ever affectionate daughter, CATHERINE GRAHAM.

LOOK AT THIS, EMIGRANTS AND OTHERS!

300 FAMILIES WANTED, WHO wish Homes. Having completed my survey in the southern part of the city of San Jose, in all 900 lots, 25 by 47 1-2 varas, and being desirous to have improvements go on rapidly, I propose to give 300 lots to settlers who will build a neat, suitable house on each lot, and fence the same.

I have also over 100 lots, 50 varas square, in the Old Survey of the city, which I will sell low, and give time on part. The lots I own in the Old and New surveys of the city are decidedly the best locations for buildings, being high and dry, and never subject to overflow; with the very best mountain water, obtained at the depth of 12 to 14 feet.

I think lumber shippers would do well to call and take a look at my lots. I will give them lots to build houses on, or will exchange lots for lumber of all kinds, or houses.

THE VALLEY.—We have a greater number of acres equal to the best Illinois land, than can be seen in any other north or east of us, in California; and the grain-growing portions of the world, so far as I am acquainted, cannot equal us in producing wheat, both in quality and quantity: 60 bushels have been raised to the acre, and there can be seen now in the fields and gardens of our farmers, as fine crops as a majority of the States can produce at and vegetables of all kinds in abundance growing, and that too, without rain or watering.

CLIMATE AND HEALTH—Listen, now:—The average summer heat is 75 to 80 degs., with cool nights; no musquitoes, day or night; no fever and ague, and no disease peculiar to the valley or town, winter or summer.—We have some of the first settlers living with us yet, over 100 years of age, and one in particular, over 110, sound in body and mind. We have had but one death out of the immigration of 1846, an old gentleman, who was broken down with disease before he came to our city.

THE MORALS of our city and vicinity will, I make no doubt, compare with those of the best of our neighboring cities and towns. We are a law abiding and a law supporting people, and have our churches and schools as well as others.

Persons wishing lots will apply soon to the subscriber in the south end of the city. JAMES F. REED.

KLAMATH GOLD MINES, River and Town.—One of the most extensive fields for speculation at present in California.

The attention of the public is now called to this very important part of California. The town of Klamath is situated on the bank and at the vicinity of the mouth of a river, upon the numerous tributaries of which the most productive and extensive gold mines have been discovered of any now in existence in California. The Harbor (at the upper end of which this beautiful town site is situated) is both commodious and secure, and possesses the very superior advantage over all the other ports upon the coast between the Columbia river and San Francisco of a perfectly safe entrance. The river is a magnificent stream and navigable by steamers, according to the opinion of steamboat captains and others in every way competent to judge of the matter, at least 70 miles up; at, and even below which point, these very rich gold mines commence. Merchants and capitalists who are desirous of realizing a handsome profit upon their goods and an enormous return for their capital cannot enter into a better speculation or make a more safe investment of their means in any part of California, from the fact that there are at present about 2000 miners at work upon this river and its tributaries; and there is every reason to believe, from the numerous satisfactory statements of the miners, relative to their success during the last year, that next year there will be many times the number. The immediate rush to these mines from all parts will be immense, and in fact almost unprecedented; and this town, which may be said to be adjacent, in consequence of the water communication into the very heart of them, must and will undoubtedly be insured a speedy and almost magic growth, and by this time next year will be a very respectable rival to (if not totally eclipsing,) Sacramento and Stockton. Miners who have, during the last summer expended to such a deplorable extent their useless toil and labor in the southern mines, and have actually lost money in the place of making it, by the unsuccessful and numerous damming operaious, and the scarcity of gold there, are strongly recommended to turn their attention to these mines, as the average amount dug last year, putting it at an infinitely lower estimate than from the statements of the miners we would be warranted in putting it, one ounce per day to the man. This alone is sufficient to justify the opinion that there is ample room for more, and when it is taken into consideration that not over one tenth part of the gold region has as yet been explored, the certainty of room is rendered beyond doubt. The enormous tax upon the miners for packing of provisions will next year be effectually obviated by the aid of water communication, which extends into the very heart of the mines. Goods can be taken from the deck of steamers by the miners in the place of the pack-saddle of the mule, and provisions now furnished at an expense of $1 50 for the mere packing, can be afforded for ten cents, thus enabling the miner to lay by the fruits of their labor, instead of expending so great a quota for subsistence. To persons wishing to invest capital to an advantage in town lots, an almost unparalleled money making speculation is now open; as lots at the present time can be procured at a comparatively low figure, and the price that they will be disposed of next spring will be high. Arrangements have been made for a steamer to ply between the town and the mines, which will warrant to miners the supply of provisions forthwith.

A map of the town and river can be seen at Messrs. Shultz & Palmer's, foot of Jackson street; at Bullett & Patrick's, corner of Jackson and Sansome streets; and at Worthington, Beale & Bunting's.

Any required information respecting the Mines, River, Town and Harbor, by application to Mr. John Gray, at Messrs. Schultz & Palmer, or to Mr. T. Bunting, at the firm of Worthington, Beale & Bunting, on Montgomery street. o16

THE PEOPLE OF THE STATE of California, District of the County of Santa Clara: Jose De Arnaz vs. Genoveva Garcia Mangel, Emanuel Mangel and Lorenzo Geoffrey. Petition to foreclose mortgage, &c.

Whereas, JOSE DE ARNAZ filed in this Court on the 16th day of May, 1850, his petition, showing, among other things, that on the 20th day of December, 1849, Genoveva Garcia Mangel, the wife of Emanuel Mangel, was the owner in fee of a certain house and lot in San Jose, adjoining and in the rear of the house lately occupied by Messrs. Larrain, Benitez & Co., and fronting on Garcia street, did on that day mortgage the same, with the consent of Emanuel Mangel, her husband, to said Arnaz, to secure the sum of five hundred and sixty dollars, payable four months from date: That afterwards, on or about the 15th day of January, 1850, said Emanuel Mangel and Genoveva G. Mangel executed a mortgage on the same premises to one Geoffrey, of San Francisco, for about fourteen hundred dollars; which said mortgage was falsely dated the 19th of December, 1849, with intent to defeat the prior mortgage lien on said real estate, and to cheat and defraud said petitioner out of his debt. Said petitioner prays discovery and full answer to the above facts, that said mortgage to Geoffrey be set aside as fraudulent, and that said premises be sold to pay petitioners's mortgage, and for general relief.

And it being proved by affidavit to the satisfaction of this Court that Emanuel Mangel is a non-resident of this State, notice is hereby given to Emanuel Mangel to be and appear before the Honorable Court of the Third Judicial District, for the County of Santa Clara, on the fourth Monday of December, 1850, at the court house in San Jose, then and there to answer said petition, or, in default thereof, the allegation therein contained will be heard in your absence and decreed accordingly.

Given under my hand and private seal, there being no seal of office yet provided at this office,

Forbes, Robert Walkenshaw, and John Parrott, filed in the Clerk's Office of said court at San Jose, on the 5th day of October, 1850, by the said plaintiffs, to recover from you the possession of a certain tract of land; being a portion of the Rancho de la Canada de los Capitancillas, alias San Vicente, and bounded and described as follows, viz: all the western portion of said rancho lying between the rancho de las Capitancillas, belonging to William Wiggins, and the arroyo de los Alamitos, with a tract lying east of and along said arroyo, of half a mile in width, and running to the Sierra, which land, and more especially the Mine, Hacienda, and appurtenances of New Almaden, thereon situate, the said plaintiffs claim as their property, and that you unlawfully retain possession thereof since the first day of February, 1845.
